

MSW 025-030F, 040E

Walkie straddle stacker

2,500-4,000 lbs.

Agility and versatility in a powerhouse platform.

The walkie straddle stacker is designed for performance, ergonomics, and reliability. It comes with features designed to help operators get the most productivity out of every shift making it an ideal high-capacity solution for load transfer and stacking / retrieving tasks.

WHY IT WORKS:

1. COMFORT

Angled handgrips and centralized controls position all functions within easy reach on the handle

2. PERFORMANCE

Three performance modes allow you to tailor truck performance to real-time demands

3. VISIBILITY

Hi-Vis mast offers wide range of view to help operators maintain maximum control in tight spaces

Raises productivity, reduces maintenance.

ERGONOMICALLY DESIGNED CONTROL HANDLE

- Angled handgrips and fingertip hydraulic controls reduce operator fatigue and enhance comfort
- Dual butterfly direction and speed control for reduced effort and smooth operation
- Bottom-mounted tiller handle design optimizes the operating position and reduces the steering effort

DURABLE MAST DESIGN WITH ENHANCED VISIBILITY

- Available in both simplex, limited free lift and triplex, full free lift configurations
- Multiple height options to suit various stacking and clearance requirements

ROBUST HYDRAULIC SYSTEM

- Fully proportional lift/lower controls for precise load handling
- Quiet operation with fewer connections and solid-state pump control

HIGHER PRODUCTIVITY, REDUCED MAINTENANCE

- Thermal plastic compartment cover is easily removed without tools for easy service access and maintenance
- SEM traction control technology enhances performance to help operators move more efficiently—especially in tight spaces and high-frequency tasks
- Auto Deceleration System reduces brake wear and returns energy to the battery

BUILT FOR VERSATILITY

- Ideal for retail, manufacturing, storage, and distribution
- Various drive tires, forks and a side shifter are available for a variety of environments +
- Freezer package enables reliable operation in environments as cold as -15°F +
